This draft map was produced by the U.S. Fish and WIldlife Service to show final recommended boundary changes to the John H. Chafee Coastal Barrier Resources System (CBRS) as directed by Section 4 of the Coastal Barrier Resources Reauthorization Act of 2005 (Public Law 109-226).

The seaward side of the CBRS unit includes the entire sand-sharing system, including the beach and nearshore area. The sand-sharing system of CBRS units is normally defined by the 30-ft bathymetric contour. In large coastal embayments and the Great Lakes, the sand-sharing system is defined by the 20-ft bathymetric contour or a line approximately one mile seaward of the shoreline, whichever is nearer the coastal barrier.

For additional information about the Coastal Barrier Resources Act or CBRS, please visit www.fws.gov/cbra.

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

Cape San Blas Unit P30/P30P (2 of 2)

Existing System Unit Boundary

Existing Otherwise Protected Area (OPA)Boundary; OPAs are identified on the map by the letter "P" following the unit number

— Final Recommended System Unit Boundary

Final Recommended Otherwise Protected Area (OPA)
 Boundary; OPAs are identified on the map by the letter
 "P" following the unit number
